PL Montaż ogrodu zimowego bezpośrednio przy budynku powinien uwzględnić możliwości nagłego zsuwu większych ilości śniegu z połaci dachowej. Aby zapewnić trwałość i bezpieczeństwo użytkowania konstrukcji należy zastosować odpowiednie zabezpieczenia na dachu.

EN When installing a winter garden directly against a building, one must take into account the possibility of large amounts of snow sliding off the roof. To ensure the structure's durability and safety, appropriate safety measures must be put in place on the roof.
